There will be a picnic at Humphreys saw-mill, ten miles north-east from Woodville, on next Friday, July 23rd. Everybody is cordially invited to be present. The people of that section are noted for their hospitality, and a delightful time is in store for all who attend.

White voters.....1272
Colored voters.....173
Total.....1445

The weather during the past week has, in the main, been favorable to the crops, although rain would have been beneficial in many sections. The grassy crops have been generally cleaned and with indications at this writing for rain we can look for decided improvements in conditions during next week. Corn continues to do well, and the prospects are for the largest yield in the past ten years.

Several parties from our town have taken advantage this week of the excellent fishing for Bar-fish at the canal on Buffalo. Dr. Catchings, and Messrs. Leon Schwarz, Birdsong and Fields, enjoyed the sport on Wednesday, and Dr. Woods and Messrs. Shannon, John Sessions and W. W. Dickson yesterday. There is fine sport when the fish are biting, and all the boys report fine catches. Of course there are a few fishy stories told upon the return of each victorious party.

Among those who took advantage of the excursion rates to New Orleans on Wednesday were Mr. and Mrs. Chas. Robbins, Mr. and Mrs. J. A. Davidson, Mr. and Mrs. John Cox, Messdames Woodruff, Schefer, N. Richardson, N. Therrell, C. W. Henderson, W. K. Cooper, Elliott Chisholm, S. Schwartz, B. Brown, C. Wigner, Misses Anna McGee, Bertha Johns, Sadie and Miriam Brown, and Messrs. Harry Cohen, Ernest Cropper, Chas. McGee, G. Kann Carroll Wood, Chas. T. Zoiler and K. P. Flinn.

The following ladies and gentlemen have been appointed commissioners from this county to prepare an exhibit from the county for the St. Louis Exposition: Mr. Henry Johnson, Chairman; Messrs. Fred Martin, H. B. McGee, C. M. Stricker, Ernest Dampf, John Cobb and Mrs. D. C. Bramlette, Mrs. D. Babers, Mrs. Eva McKey, Mrs. A. Hackett and Mrs. Leroy McCearley. There is considerable work to be performed by this commission, if a creditable exhibit is to be sent from our county, and we trust each and every one will lend their best efforts in this direction.

Capt. J. D. Cage, of Morning Glory, is considered one of the King farmers of that neck of the woods, but never could raise sweet potatoes. Last spring he concluded he would try again this year, so he goes over to his neighbor Hays to get advice how he should plant and cultivate his potato crop.

Mr. Hays informed him that the first thing to do was to buy seed, put his ground in first-class fix, plant the potatoes deep, and when the vines had grown to about 4 to 6 feet in length, to take a good double team and cover the vines with at least 6 or 8 inches of dirt. The advice has been followed by Capt. Cage, and the vines have been covered since the 15th of May, and not a sprout of a vine has been seen since, but millions of small white tubers, in the shape of potatoes, are sticking up all over the potato ridge. A tunnel was made under one of the ridges lately and vines at least ten feet long were found but they were going down in the direction of China. Another report will be made on this crop about digging time.
